Movie of the month for August 9, 2011

FROM THE PRODUCERS OF WHO KILLED THE ELECTRIC CAR? AND I.O.U.S.A.

"With style, verve and righteous anger, the film exposes the bottled water industry's role in suckering the public, harming our health, accelerating climate change, contributing to overall pollution, and increasing America's dependence on fossil fuels. All while gouging consumers with exorbitant and indefensible prices."
- Peter Rotberg, *The Nation*

Video Topics:

- Whisky is for sipping & water is for fighting Mark Twain
- A fight for control over our most valuable resource
- Floating mass of plastic in the ocean as big as Texas
- Commercial water plants and their operations
- Our government's responsibilities and regulations
- Effects of BPA in bottled water and other issues
- The healthiest water to drink and how to get it
- Ways to take positive and effective action
- Encouragement to be the change you want to see in the world

There will be "round table", informal open discussion afterwards so you can ask questions, get answers and learn from other people's questions and comments as well.

Contact: (231) 598-0780 Mike Malcolm – a six year melanoma eye cancer survivor – the natural way!

When: Movie Night is the 2nd Tuesday of every month 7pm to 9pm

Different health topics are discussed and new interesting videos are shown every time.

Where: 435 North Michigan Avenue Big Rapids, MI 49307

In the Community Room of the Public Safety building across from the Middle school

Why: Sickness and disease is rampant and we are not getting the real truth as to why and what we can do about it!

Come find out what you can do to avoid and/or beat sickness and diseases to live a long, happy, healthy, abundant life!

“There are no incurable diseases, only incurable people.”

-Dr. Leonard Coldwell
